PROFESSIONAL SUMMARY

I'm experienced in collaborating with teams to create impactful, cutting-edge websites that drive customer engagement and deliver measurable business results. Proficient in design principles and user-centric approaches to ensure intuitive and effective web experiences. Resourceful professional with a proven track record of developing appealing web designs and features. Solid knowledge of HTML5, CSS3, JavaScript, and ancillary frameworks/libraries, with a strong ability to quickly learn and apply new technologies.

EDUCATION

BACHELOR OF ARTS Digital Media & Design
University of Connecticut
Stamford, CT | May 2021
Professional Development:

- **InHouse Learning (Startup Project)**: I collaborated with a team of software engineers and digital strategists to deliver a project for InHouse Learning, a startup. This opportunity allowed me to contribute to the development process, ensuring the final deliverable met client expectations. My work on this project directly contributed to securing a paid internship at Vancord Cyber Security.
- **Inkululeko (Non-Profit Campaign)**: As the sole software engineer on a project for Inkululeko, a non-profit organization, I was tasked with developing an engaging webpage that cohesively integrated digital assets curated by my team. I took full responsibility for coding the page, ensuring it aligned with the campaign's goals and the creative direction provided by my teammates.
